

# Tips for University Success

As you are finishing your k-12 education, it is time to start applying to university! Make sure to apply to programs and institutions that suit your personal and academic goals.

After reading the syllabus, create a calendar list of deadlines & important dates.

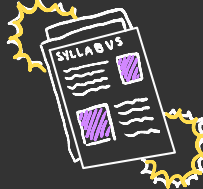

After receiving your post-secondary acceptance, it is time to start getting ready for university. Get familiar with the facilities & services your school offers, you will make good use out of them! Consider things like online resources, peer tutoring, clubs, research, and public study spaces.

Start prioritizing the upcoming work.

You can consider:

- time needed
- effort needed
- help needed

Before classes begin, get a head start by reading the syllabus. This will give you an idea of the mark breakdown and assignment/assessment schedule. The syllabus is also a great way to see what topics will be taught, as well as contact information for the instructor and teaching assistants.

Start blocking in time to complete assignments & study in your calendar based on results of prioritization.

WEEK ONE	
M	T
MONDAY	TUESDAY
MATH	CHEMISTRY
ENGLISH	HISTORY

Don't forget about organization! Keep your physical, digital, & mental spaces organized to help yourself meet your learning goals!

Don't forget about yourself! With the constant due dates, it is easy to forget about your needs. Remember to balance your time and take a quick break!
